December 1, 2008

Dear St. Timothy School family,

St. Timothy School is excited to announce a special partnership with SCORE! Educational Centers! The partnership will launch in January with an on campus after-school Study Skills Program. Please plan to attend a Parent Information session on December 15th or January 8th at 7:30PM.

Since 1992, SCORE! has been providing kids with a fun way to catch up, keep up, and get ahead in their studies. Part of the Kaplan family, SCORE! works with children in grades Kindergarten through 9 to help them achieve their goals and reach their academic potential in math, reading, writing, and algebra. SCORE! programs include personal attention, positive reinforcement, and a customized curriculum that adapts to each child's pace and learning needs. St. Timothy school has elected to partner with SCORE! because of their results with helping students learn academic skills, and their ability to help kids develop a lifelong love of learning.

Through our partnership with SCORE!, St. Timothy School families will receive a **10% discount** off of our Study Skills and Premier Tutoring Programs and **\$50 off** of the Premier Tutoring assessment. Below are a few of the features and benefits of SCORE! Programs:

- **Significant Academic Progress:** According to a recent independent study, math and reading students in SCORE!'s Premier Tutoring program master 1.5 years worth of skills in 45 hours of instruction.*
- **Comprehensive Skills Assessment and Learning Styles Inventory:** SCORE! begins their Premier Tutoring program with a comprehensive and diagnostic 2.5-hour skills assessment administered by an academic expert.
- **Fun and Engaging Learning Environment:** SCORE! tutors make sure that learning at SCORE! is not only productive, but also fun. They take the time to figure out what motivates each child, utilize a variety teaching techniques and maintain a consistent positive attitude so that children remain engaged in the learning process.
- **Focus on Motivation and Goal Setting:** Every child at SCORE! learns how to set and achieve short- and long-term goals through SCORE!'s unique goal program, ensuring that kids understand the link between persistence and academic success.

The final element to St. Timothy School's partnership with SCORE! is that SCORE! helps our school raise money on an ongoing basis. Each time a St. Timothy School student enrolls in a Premier Tutoring or Study Skills program, SCORE! will give \$100 back to our school to support our ongoing fundraising efforts!

What's next? Follow the four simple steps below to help your son or daughter achieve his or her educational goals and to help our school raise money to support our programs!

1. Find your nearest SCORE! Center on the Partnership Program Voucher
2. Set a time for a free appointment
3. Remember to redeem the voucher included so that St. Timothy gets credit
4. Receive discounts on Study Skills and Premier Tutoring Programs

Best Regards,

Principal Patricia Kobyra
