703-669-0373 (h) – 214-927-6697 (c)

Experienced at helping kids develop basic skills,
increase sight vocabulary, and discover the joy of reading.

Unable to read until I was 10, I was held back in the 3rd grade. With help, I was at the top of my class in reading the next year. Now a PhD student, it is my passion to help others excel in reading and gain a love of books.

During the summer of 2006 I worked for the Institute of Reading Development in the Saint Louis metropolitan area. The program is designed as a *reading enhancement* through repetition, responsive reading, and hands on instruction. I am trained to tutor children from kindergarten to eighth grade.

Flexible and available to work at your home.
